PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in data engineering, business intelligence, and machine learning. Skilled in building scalable data pipelines, predictive models, and dashboards that uncover insights and improve decision-making. Proficient in Azure, Python, SQL, Power BI, and Spark, with a passion for data storytelling and optimization.

EDUCATION

Coventry University, UK

MSc in Data Science and Computational Intelligence

Guru Nanak Institutions Technical Campus, India

Bachelor's in Computer Science - Data Science

PROJECT EXPERIENCE

Incremental Data Loading & Change Data Capture — Azure Data Factory

- Developed incremental ETL pipelines using ADF, Azure SQL, and Data Lake, reducing data latency by 60%.
- Implemented CDC mechanisms to minimize duplication and optimize storage by 40%.

Client-Specific Data Extraction from Cloud SQL — Apache Spark, SQL

- Engineered Spark-based retrieval system for 10M+ records, reducing query execution time by 35%.
- Designed reusable SQL modules that improved data accessibility for business clients.

Heart Disease Prediction — Python, Scikit-learn

- Built ML models (Logistic Regression, Random Forest) on healthcare data, achieving 92% accuracy.
- Applied preprocessing and feature engineering to enhance predictive performance.

Car Sales Dashboard — Power BI

- Designed an interactive dashboard analyzing sales trends across 5 regions and 12 months.
- Integrated DAX measures and slicers to provide dynamic KPIs and insights, reducing manual reporting by 75%.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML/CSS

Data Visualization Tools: Power BI, Tableau, Excel (VBA), Looker

ML Tools: Pandas, NumPy, Scikit-learn

Cloud & ETL: Azure Data Factory, Azure Data Lake, Apache

Spark Databases: Azure SQL, MongoDB

Core Skills: EDA, Feature Engineering, Data Cleaning, Classification & Regression Models

PROFESSIONAL EXPERIENCE

WIPRO – Java Full Stack Internship

- Developed responsive web interfaces using HTML, CSS, JavaScript, and MongoDB.
- Delivered a full stack web application with user authentication and CRUD features.
